From Hon. W. H. Jones, of West Dover, Vermont.

"I have been troubled from my boyhood with chronic or hereditary lung complaint. Some years since, early in the winter, I took cold, which as usual settled into a severe cough, which continued to increase as the season advanced, although I made use of all the cough remedies I had knowledge of. My family physician also prescribed for me, but I felt no relief. During all this time I was gradually running down, losing flesh and strength, until my friends as well as myself, became very much alarmed, thinking I should waste away in consumption. While in Boston, during the spring following, I was induced to try WISTAR'S BALSAM OF WILD CHERRY. After one day's trial I was sensible that it was relieving me; in ten days time my cough had entirely ceased, and I was soon restored to my health and strength. I have ever since kept the BALSAM in my house, and whenever any member of my family has a cough or cold, it is immediately resorted to. No family should be without it." Sold by all druggists.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine, often intermingled in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill and, perhaps, death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial 10 cents; regular size, 75 cents. *

The Machine was Worn Out.

Why? Not because it was not well built, but it was wrongly run. Thousands of men who have run down long before their three-score and ten years are accomplished, might have been renewed into sprightliness and vim if they had tried the well-known PERUVIAN SYRUP, which contains among its compounds the Protoxide of Iron, so combined that it assimilates with the blood and invigorates the whole system. This syrup has proved efficacious in thousands of cases, and will do everybody good who uses it. All druggists keep it. *

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Disease. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives, try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superceded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort Street, and sold by all the principal dealers. *

Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets, Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed. R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store. *

DR. JAMES, Broughton St., opposite Council Chambers, can be consulted daily. Of nearly 50 years' extensive practice in England, America, and Australia. He extracts polypus and cancer without the use of the knife when taken in time. Dr. James is the discoverer of a medicine which cures all local rheumatic pains as soon as applied. DR. JAMES is in possession of medicines that never failed to stop and cure DIPTHERIA, SMALLPOX, CROUP and all FEVERS in a few hours. N. B.—Mrs. James, midwife of long experience and successful practice in this city, is open to engagement.

PEACE PROCLAIMED.—After ten years of active warfare! I have been at war with my customers for ten long years, and I am now ready to DYE FOR THEM at reduced rates. Gents' clothes cleaned and repaired; faded curtains and clothing restored and made to appear as good as when new. Customers abroad will not have reason to grumble at prices if they send their articles to T. W. Pierre, tailor and dyer, Yates street, next door to Reynolds' butcher shop. Castoff clothing taken in exchange for work. *

JOB PRINTING.—A fine line of new job type was received by the City of Panama at *The Colonist*. Billheads, cards, circulars and posters are now turned out at very low rates in first-class style. *

PRIVATE BILLS.

ALL APPLICATIONS FOR PRIVATE BILLS properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North American Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act—shall require a Notice, clearly and distinctly specifying the nature and object of the application to be published as follows:—

A notice inserted in the BRITISH COLUMBIA GAZETTE and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

Before any petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such a Bill shall, upon giving the notice prescribed by the preceding rule, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

SAINT ANNE, OTTAWA RIVER

Notice to Contractors.

SEALED TENDERS ADDRESSED TO THE SEcretary of Public Works, and endorsed "Tender for Canal and Lock at St. Anne," will be received at this office until the arrival of the Eastern and Western mails on TUESDAY THE 8TH DAY OF OCTOBER next, for the construction of a Lock and the formation of approaches to it on the landward side of the present lock at St. Anne.

A map of the locality, together with plans and specification of the works to be done, can be seen at this office and at the Resident Engineer's office, St. Anne, on and after TUESDAY THE 24TH DAY OF SEPTEMBER next, at either of which places printed forms of Tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and further, an accepted Bank cheque for the sum of $2000 must accompany the Tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates and on the terms stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

For the due fulfilment of the contract, satisfactory security will be required by the deposit of money to the amount of *five per cent.* on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent. only of the progress estimates will be paid until the completion of the work.

To each tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the Contract.

The Department does not, however, bind itself to accept the lowest or any tender.

ELECTORS! RESERVE YOUR PLEDGES.

TO THE ELECTORS OF VANCOUVER DISTRICT.

GENTLEMEN:—HAVING BEEN CALLED UPON by a large number of merchants, farmers, workingmen and others to represent Vancouver District in the House of Commons at the ensuing general election, and believing that there never was a period in the history of our adopted country more critical than the present—when honest, industrious men, who constitute the bone and sinew of the commonwealth, should look after their rights—when commercial men who are in the channels of trade—enterprising men who develop the resources of the country—workingmen whose honest toil revolves the wheel of commerce and puts the whole machinery in motion—should give that attention and care to public interests which are justly expected of every true patriot and loyal citizen. And having, moreover, been intimately acquainted with the political interests of the Dominion in the Eastern Provinces, and having helped to place men in power who have been the workingman's friends and the friends of progress, such as the Hons. Sir J. A. Macdonald, Ontario; S. L. Tilley, N. B.; Dr. Tupper, N. S.; and J. C. Pope, P. E. I.; I shall, if elected by your suffrages, be found working shoulder to shoulder with such men for the country's weal.

I am led to this determination for the simple reason that the present Government have failed to act justly with British Columbia, after five years of unlimited power. They have given us no definite hope of the immediate construction of the Canadian Pacific Railway and no change of Tariff on account of our isolated and distant geographical position. I advocate therefore:

1. Immediate railway construction and the honorable fulfilment of what is known as the Carnarvon Terms.
2. The erection of a Drydock at once as being, like the Railway, not only a Provincial but also a national necessity.
3. The importation free of duty of all material required for the rigging and fitting of ships that cannot be procured in this Province.
4. A just and equitable adjustment of both Export and Import Dues from a reciprocal point of view, which would benefit largely the Commercial, Mining, Agricultural and Lumbering interests of the Districts as well as of the whole Province.
5. I would also strive to secure a new Postoffice for the thriving city of Nanaimo, and failing in that, some improvement at least upon the shameful neglect of its present postal facilities.

Other local and provincial wants which may call for legislative redress shall receive, if I am elected, my serious attention and warmest support.

I shall take an early opportunity of holding public meetings in the various sections of your wide and extensive district (of which due notice will be given) at which I shall, as also in private intercourse, fully explain the course I intend to pursue, and hope as the result of that to receive your generous support.

I have the honor to be, Gentlemen,
Your obedient servant,
A. J. McLELLAN.
Nanaimo, June 14th, 1878. je30dw

TO THE ELECTORS OF SOOKE, LAKE, SAANICH, COWICHAN, NANAIMO AND COMOX.

GENTLEMEN:—The very great favor with which my proposal to become a candidate for the representation of Vancouver District in the House of Commons has been received, although just on the eve of an election, and the satisfaction manifested by my numerous friends from Sooke to Comox, induce me to add my name to the number already soliciting your suffrages.

Several years have elapsed since I contested and nearly carried the seat for which I am again an aspirant. Then I was comparatively unknown and a stranger to many in the District. From 1872 to the present time the exercise of my duties as Superintendent of Education has brought me into personal contact with most of the electors. I trust that nearly seven years' educational work has secured for me such a reputation as will induce you to believe that if chosen as your representative at Ottawa I shall carry the same honesty of purpose, industry and energy into the political arena that my many friends in every part of the Province give me the credit of having shown in the establishment and conduct of our school system.

Experience and observation have only confirmed me in the political opinions which I had the honor to enunciate when prosecuting my canvass in the early days of Confederation. We have everything to gain and nothing to lose by a change in the Government at Ottawa. I need hardly announce, therefore, that I am still faithful in my allegiance to the party of which Sir John A. Macdonald is the leader. At the same time, if elected, I cannot promise to give that great party, either in opposition or in possession of the Treasury Benches, a blind, unreasoning and slavish support; because it can easily be imagined that questions may arise when to do so would be detrimental to the best interests of your large and influential district. Those interests shall always be paramount to every party consideration.

The claims upon the Dominion Government for the construction of the Island Railway, in which you are particularly interested, must be held inviolate. While other districts have been filling up with industrious immigrants, the settlement of Vancouver has been retarded by the withdrawal of all the Crown lands from preemption in the railway belt, thus rendering it impossible to form an estimate of the injury, direct and indirect, that has been perpetrated by the "how-not-to-do-it" policy of the Mackenzie Administration.

The present Tariff is not suited to all sections of the Dominion. I believe that a measure can be devised that will be fair and equitable to all the Provinces, and tend to foster and encourage manufacturing, agricultural and other interests throughout Canada. Being quite alive to the necessity of great caution in dealing with this question, I will here assure the electors that, if successful at the polls, their interests shall be made paramount to every other consideration when the proper time arrives for legislating upon a subject of so much importance.

With regard to questions of a local nature, such as postal, telegraphic, marine, etc., etc., which may come under the purview of the general government, I will, if returned, omit no opportunity of representing your wants and claims at the proper time and in the proper quarter.

No time will be lost in prosecuting a personal canvass throughout the district, and whenever practicable public meetings will be held, which will enable me to enter more into detail on the above-mentioned subjects, and touch upon others that cannot be discussed in the space usually allotted to an address of this description.

I have the honor to be,
Gentlemen,
Your very ob't serv't,
JOHN JESSOP.

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Havana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker,
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory,
The best and cheapest in Victoria.

F. CAMPBELL.

"Berkeley, Sept. 1869.—Gentlemen: I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking Norton's Camomile Pills. I applied to your agent, Mr. Bell, Berkeley, for the above named pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, your truly, HENRY ALLPASS.

DR. J. COLLIS BROWNE'S

(Ex Army Med. Staff),

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Ward stated that DR. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely and mean no other than Dr. Browne's.—See "Times," July 12, 1864.

Tee public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures, while medical men extol its virtues most extensively, using it extensively in the following diseases:

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics Coughs, Asthma, Cramp, Rheumatism, Neuralgia, Cough, Hysteria.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," Dec. 31, 1864.

From A. Montgomery, Esq., late inspector of Hospitrls, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen monts severe suffering, and when other medicines had failed.

Dr. Lowe, Medical Missionary in India, reports (Dec., 1865,) that in nearly every case of Cholera in which Dr. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from "Medical Times," Jan. 10, 1866.—Chlorodyne is prescribed by scores of orthodox remedial practioners. Of course it would not thus be singularly popular did it not supply a want and fill a lace.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each.

CAUTION.—None Genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

THE "CONVENTION" AND THE PUBLIC.

On the 24th day of July last, about 2 o'clock in the afternoon, there was held in a room in this city a meeting of an extraordinary and unprecedented nature. Thirty men, whose object had been previously concealed from the public, whose deliberations were conducted with closed doors, and whose members were pledged to secresy, gathered to decide into whose hands should be consigned for the next five years the political destinies of this important constituency. A chairman and secretary were chosen, a code of rules was established, obligations imposed, addresses delivered, and the names of a trio of gentlemen were put forward for ballot. From that trio two were selected as candidates for whom the electors of Victoria District will be called on to vote at the ensuing election for tha Commons. These candidates have since been paraded in their party organ as fit and proper persons to represent this constituency at Ottawa. The public, who had neither part nor lot in the nomination, who were not asked to send delegates to the "convention," and who were not consulted as to its *personnel*, were expected to accept these men from the hands of the self-constituted body, and to elevate them, without questioning their qualities, to the "seventh heaven" of political preferment. Shakespeare has somewhere said that "things begun in ill strengthen themselves in ill." This "convention" which had not received the sanction of popular endorsement, and had therefore no claim to an existence as a popular organization, overstepped the bounds of discretion and was guilty of an act of presumption when it usurped a right that belongs alone to the people of selecting or rejecting candidates. The people suffer the consequences of bad legislation; they pay the taxes and provide the "sinews of war" for the maintenance of governments; and it was an unheard of usurpation of their rights for a secret caucus, convention or cabal to attempt to indicate the men for whom the people should vote. If the right of an irresponsible body of men to snatch from the people the prerogative of selection be conceded, there would be an end to popular government at once. The people would be transformed into hewers of wood and drawers of water for a self-chosen few. Their only privilege would be that of contributing towards the support of representatives in whose selection they would have no voice. Responsible Government would become a sham if the duty of selecting representatives were surrendered by the electors to self-appointed bodies whose only recommendation would be the possession of a superabundance of impudence.

The decision of the meeting of Tuesday night shows that the public of Victoria know their rights and mean to maintain them at all hazards. That they repudiate the acts of the recent "convention." That they require all candidates to go through the ordeal of popular inspection and approval. That they will vote for no man who may attempt to snatch from them rights and privileges guaranteed by the Constitution. The meeting of Tuesday was called in the interest of the candidates of the "convention." It was a numerous, influential and respectable gathering. Men of all classes were there and took part in the proceedings, and from first to last the liveliest interest was manifested. The "convention" candidates—Messrs. DECOSMOS and DALBY—elicited no applause. Mr. DAVIES, who declined to have anything to do with the "convention," and Mr. TODD, who was rejected by that body, were treated to an ovation of cheers whenever they rose to speak. What was the result of the meeting? The nomination of Mr. DALBY by the "convention" was condemned and repudiated, and Mr. TODD was almost unanimously nominated in his stead, while Mr. DAVIES held the audience from beginning to end. All this goes to prove that the people have a keen sense of what is due them as the source from which emanates and the basis on which rests the governing power; and that no set of men will be suffered to snatch power from the people without subjecting themselves to severe censure. If Mr. DALBY has been killed dead, and Mr. DECOSMOS grievously wounded, politically, we cannot see that they have any one to blame but themselves. We feel sure that the electors have never been able to discover that Mr. DALBY possessed the slightest qualification for the high position to which his intense personal vanity and the advice of friends have impelled him to aspire. Mr. DAVIES suggested that he was required as a "tool" by Mr. DECOSMOS. This suggestion would seem to furnish a key to what would be otherwise an inexplicable mystery. Of the claims of the various candidates we shall speak on a future occasion. Our object to-day has been to show how decidedly and vigorously and effectually the people have placed the seal of condemnation on an irresponsible "convention."

THE WESTMINSTER AMENDMENT.

The Government seem disposed to pocket the latest defection from their ranks and to treat with cool indifference the attack made on their railway policy by the editor of the Government organ at New Westminster. The amendment offered by that gentleman knocks the bottom clean out of the Government policy, tears their Separation memorial to tatters, and affords the Canadian Government the biggest chance they have ever had of substituting arbitration for separation and compensation in lieu of the Island railway. The public do not give the Premier credit for political integrity. His record has been decidedly "shady" ever since it was discovered that he sold Mr. MCCREIGHT at KRIEMLER'S farm for a portfolio; but the veil of secresy was drawn about that disreputable act, and the chief conspirator was at least ashamed of his share in the transaction. In the case under discussion, however, there is not even a decent attempt made at concealment. The *Standard* supports Separation in every issue, and is rewarded with public "pap." The *Herald* editor attacks the Government policy at a public meeting and favors compensation in every issue and is also rewarded with public "pap." The public of Victoria must beign to understand that they have been sadly duped.

THE ENGLISH ESTABLISHMENT.

Warning Voices.

In his "notes of his life," just published Archdeacon Denison says:—The "Establishment" is gone. It would be impossible now to create "Establishment," in any country. That of it which exists is fast drawing to a close, and it is difficult to conceive of any future condition of the world in which it will be found again.

As an illustration of the evils of the present system of administering Church patronage in England, the *Liberator* observes that in a recent trial in the Divorce Court the Marquis of Blandford who is the heir to the Duke of Marlborough, and the Earl of Arlesford, appeared under circumstances of a not very reputable character. Now, the Duke of Marlborough is a patron of thirteen livings—of which it is to be supposed the Marquis of Blandford, who is now living with the Farl of Aylesford's wife, will one day be the patron. The Earl of Aylesford himself combines with his amusements at cremorne the prtronage of eight livings. Will the Bishops adduce such facts as these, in defence of the system of private patronage Lord Eldon tells us that, when any living in his gift became vacant, he was besieged everywhere—one clergyman—of whom he knew nothing—even walking from London to South Dorsetshire to get hold of him in his country retirement. Have the clergy followed Lord Aylesford in a similar manner to Cremorne, or anywhere else that he may have happened to be.

The Bishop of Manchester would fain defend, whilst he would modify the system, and on preaching on the late Didbury purchase scandal in the parish church of that place took as his theme, "Promotion and Merit." He quoted from a recent article in the Edinburgh *Daily Review* on the subject of purchase in the church, and, speaking under considerable emotion, denied that the purchase system had worked so badly for the church as might be supposed. He, however, did not defend the present unaltered position of things. He said emphatically that a person who had assumed the responsibility of a next presentation had a solemn duty to perform, and of which he could not lightly divest himself. There were certain checks upon presentation even now, but he desired to see one further check provided by making the appointments probationary for a year, giving the parishoners a veto on the appointments at the end of that time, but only on certian specific ground of unfitness.

Miscellaneous.

The *Pall Mall Gazette* says:—A correspondent writes to us: Mr. Guilford Onslow having seen in the papers that a cask of Cyprus is offered for a rhyme of that name *(sic)*, writes to the *Daily News*, and begs to say

> That of fever it's certain, and possibly typhus,
> Will be our reward for the taking of Cyprus.

Mr. Guilford Onslow's poem "wants polish" and the rhyme is scarcely satisfactory. It would not be hard, however, to fix Cyprus without a triolet:—

> We've taken the Island of Cyprus,
> We've taken and mean to retain it;
> Be it pestilent, barren, or vip'rous,
> We've taken the Island of Cyprus!
> It's envied by Frenchmen and by Pruss,
> Though Gladstone affects to disdain it,
> We've taken the Island of Cyprus;
> We've taken and mean to retain it!

The Chicago *Tribune* prints the manifest of the cargo of the lost steamship Idaho, for the purpose of giving some idea of what America is now contributing to the old world. Her cargo comprised 141 packages of agricultural implements, 77,000 pounds of bacon, 98 packages of clocks, 17,000 bushels of corn, 1,900 bales of cotton, 94 bales of hops, 58 horses, 200 tons of fresh meat, 75 tierces of salt meat, 2 cases of machinery, 5 pianos, 12 kegs of ink, 25,000 bushels of wheat, 12 packages of manufactured wool. This was the bulk of the ship's cargo, but did not embrace the entire bill. It is sufficiently varied to show to what an almost unlimited extent the new world is contributing to the necessities of the old.

Three attendants of the Gloucester County Lunatic Asylum, in England, have been committed for manslaughter. A patient had died in the institution from ill-treatment, and it was proved that he had nine ribs broken and his breast-bone fractured from being jumped upon by those attendants. Clearly, the novelists have not exposed all the horrors of English asylums yet.

An unwillingness on the part of the elder Disraeli to pay forty guineas caused his son, Earl Beaconsfield, to become an attendant at Christian churches. The former belonged to the Portuguese synagogue of Bevis Marks, in London. He was chosen president of the synagogue but declined to serve. The penalty for the declination was forty guineas. This he declined to pay, and withdrew from membership rather than comply. Being a free thinker and a Jew by race rather than religion, he immediately attended an Episcopal church with his family. At his death, a friend paid his fine, and he was buried in the Jewish cemetery.

The Household.

TO FASTEN LETTERS ON GLASS.—To fasten metal letters on glass use a cement made of fifteen parts of copal varnish, five parts of drying oil, three parts of turpentine, two parts of oil of turpentine, five parts of liquified marine glues; melt these together in a water bath, and then add ten parts of dry slacked lime.

DRIED BEEF.—Dried beef, one of the few forms in which meat does not seem objectionable in hot weather, is difficult to keep in summer, but its freshness may be preserved a long time by hanging it up in a sack of unbleached muslin which has been dipped in strong brine.

GINGER BEER.—Boil 24 pints of water; when at boiling point pour over it the following ingredients:—2 lbs. loaf sugar, 4 ozs. cream of tartar, 1 oz. of bruised ginger, two large lemons sliced very thin, add 2 ozs. good yeast, then strain and bottle, wire down the corks. It will be ready for use next day. It has only to be tried to be appreciated—it is most refreshing in hot weather.

HOW TO MAKE MUFFINS.—I do not think the muffins were ever nicer than they were this morning. Last evening cook took one pint of sweet milk, and stirred in it a piece of butter as large as a hen's egg (which she had warmed until nearly melted); she then added four well-beaten eggs, enough sifted flour to make a pretty thick batter, and half a cupful of good strong yeast, and set in a warm place over night. This morning she heated and greased the muffin-rings, and put them on a hot greased griddle, and then filled the rings more than half full of the batter. When one side is cooked, she slips a knife under, and with a quick movement, turns muffin, ring, and all. Why is it that so many people bake muffins in the oven? They never taste the same or look the same. It takes a little care to bake them on top of the stove, for the fire must not be too hot, on the one hand, so as to scorch them, nor, on the other hand, must they be raw in the middle. I generally make sure by pulling one partly open with my fingers. After once making them, no one need fail, and no breakfast or tea cake could possibly be nicer.—*Cor. Country Gentleman.*

A Remarkable Case.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent. *

DENTISTRY.—Dr. Cool calls attention to the beautiful alluminium-lined vulcanite plates for upper and lower sets. The advantage of this work is that it is very thin, much stronger and lighter than the common plate usually worn; also, being a better conductor of heat and cold, it does not produce the iritation, sometimes caused by rubber or non-conducting substances. I make these sets for $35, something never before done, and guarantee my patrons that after once wearing one of them they will wear no other. The treatment of diseased teeth and fine operating I make a specialty. Teeth built up with pure gold to their natural contour; artificial crowns adjusted to roots in the best manner. Work of every description done anywhere I engage to do at the most reasonable prices. *

WARRANTED FOR EVER.—The manufacturer of the Raymond Sewing Machines now issues a certificate of warranty to all purchasers of sewing machines of his manufacture. The "Raymond" has been for ten years in constant use by the British Columbia public. They give unqualified satisfaction; they do everything; they do it well. Every new improvement is attached to the "Raymond." Its popularity and its sales increase. Call and see the "guarantee" which is furnished with each "Raymond" Sewing Machine. A new supply of these unequalled machines recently received. A. B. Gray & Co., sole agents for British Columbia.

N. B.—Attachments for all kinds of sewing machines on hand, including new descriptions of hemmers, tuckers, frillers, etc. *

A CARD.

EDITOR COLONIST:—IN THE ABSENCE OF legal redress I appeal to you. About three years ago Samuel Whitley took passage at Port Townsend in my Whitehall boat for Skagit River. He afterwards came to Victoria. Last month my boat was stolen by a man named Pike, at Seattle, brought to Victoria and sold to the Samuel Whitley above referred to. Mr. Whitley must have known the boat to be my property, nevertheless he purchased it for $20, far less than its value. I have followed the boat to Victoria, and find that to recover it by legal process it will cost me more than the boat is worth. I have proved my property by affidavit, but being a poor man am unable to sue for its recovery. I state my case to you in the hope that an inexpensive mode for the recovery of stolen boats will be arranged between the two governments in the future.

CITY OF VICTORIA, B. C.

PROPOSED POUND BOUNDARIES.

NOTICE IS HEREBY GIVEN, IN PURSUANCE of Resolution passed by the Mayor and Council on the 6th September inst., a vote of the Ratepayers of the City of Victoria will be taken on Tuesday, the 17th inst., between the hours of 10 a.m. and 4 p.m., at the Council Chambers of the said city, for the purpose of affirming or rejecting certain limits, outside of which cows shall be permitted to run at large or graze, without the liability of being impounded.

The following are the limits proposed to be established, viz:

To commence at the Victoria Harbor and extend along the North side of Herald street up to Blanchard Avenue; thence along the North side of Chatham street to the East side of Cook street; along the East side of Cook street to Parkington street; along the South side of Parkington street to Humboldt street; down the South side of Humboldt street to the Harbor; and thence along the water front to the place of beginning, Herald street.

By Order of the Mayor and Council.

Municipal Council.

A meeting of the City Council was held last evening. Present:—His Worship the Mayor and a full Board.

Coun. Redfern moved that the clerk be instructed to correct the advertisement in the daily papers with reference to the pound cow limits, so as to make them conform therein with the limits prescribed by the Council last year. Carried.

ASSISTANT WATER COMMISSIONER.

His Worship the Mayor then read a letter from Mr. Gastineau, City Surveyor, stating that owing to witnesses declining to come forward and his inability to compel them to do so, he was compelled to abandon the charges of intoxication, etc., against Mr. Preece, Assistant Water Commissioner.

Coun. Williams said that in the first place he believed the charges to be untrue, and he still believed them so; they emanated from the wrong source.

Coun. Shakespeare said Mr. Gastineau should at least be requested to apologise and give the Council the names of his informants.

The letter was ordered to be received and filed.

Coun. Todd moved that inasmuch as the charges against Mr. Preece had been withdrawn by Mr. Gastineau, that Mr. Preece be relieved of any suspicion of guilt in the matter.

Seconded by Mr. Redfern and carried unanimously.

COMPENSATION CLAIM.

A letter was read from Messrs. Drake & Jackson on behalf of Mr. Thos. Harris, executor and trustee for the estate of Mr. Smith, asking for compensation in the sum of $300 for water pipes laid through his property, Lake District. Referred to Water Works Committee.

STREET LIGHTING.

The Street Lighting Committee handed in a report to the effect that after communicating with parties in San Francisco and Portland they had come to the decision that a cheaper mode of lighting the streets could be obtained than that for which the city has formerly paid; but in consequence of the lateness of the season and the time required to erect new lamp posts, &c., they thought it better to arrange with the City Gas Company for the lighting of the streets for a period of eight months, the Gas Company agreeing to furnish the same amount of light as supplied by them last winter.

Coun. Redfern moved that the committee wait upon the City Gas Company and ascertain on what terms a contract can be made. Carried.

SURVEYOR AND WATER COMMISSIONER.

The by-law separating the office of Water Commissioner from that of City Surveyor and fixing the salary of the latter at $125 per month came up for a second reading.

Coun. Todd did not think it desirable to separate the offices, more especially as a non-professional gentleman (Mr. Russell) had been appointed Water Commissioner. Mr. Russell was doubtless a very excellent officer, but he doubted whether he was competent to have the entire supervision of the water works.

Coun. Marvin referred to the fact that the first Water Commissioner (Mr. J. D. Robinson) was a non-professional man.

Coun. Redfern agreed with Coun. Todd's remarks, and said that a great injustice would be done to the ratepayers if a civil engineer were not given the supervision of the water works. The city now had lamentable proof that the first Water Commissioner was anything but a professional man, and a glance at the wall at the lake would convince anybody that a gross swindle had been perpetrated, for the wall, instead of being solid masonry, was a mere shell. If that Commissioner had been a professional man, tens of thousands of dollars would have been saved the city.

Coun. Williams said these Councillors (Redfern and Todd) had been banging away for a long time about the Commissioner, but if it had been left to them, the city would not have a drop of water to drink. The first Commissioner had, he believed, slept along with the Act, and in the long run the Act had been the means of putting him out of his position. Couns. Redfern and Todd wanted to make the Council believe that they knew it all; but he thought they had been taught a pretty good lesson and would be more careful in future. If anything good was introduced into the Council, they got right up and tried to talk it down.

Coun. Redfern moved in amendment that the words in the by-law declaring it to be desirable to separate the offices of Water Works Commissioner and Engineer be struck out.

The amendment was lost and after further discussion the by-law was read a second time.

On motion Mr. Gastineau was then ordered to hand over books and papers pertaining to the office of Water Commissioner to Mr. T. Russell.

The Surveyor was instructed to define the lines of various lots.

Coun. Williams moved that Mr. Downnap be ordered to employ four men to open up a ditch on the McKenzie farm to avoid future damage from overflow.

Coun. Turner said the work should be done by contract and moved that tenders be invited.

Seconded by Coun. Redfern and carried.

DRUMMERS' LICENSE.

Coun. Turner moved that Mr. Bull be instructed to collect the sum of $10 from all commercial travellers for every six months or portion thereof. He understood that through some misapprehension only a portion of the tax had been collected in cases where three months of the six had expired. This was not intended by the by-law.

Coun. Marvin said that drummers did the city more injury than any class of men who came into it and he could not understand how it was any person could uphold them. He knew that they sold small parcels of goods at the same rates as large ones and would like to see a penalty of $20 imposed on any person purchasing goods from them unless they requested them to produce their license at the time of the sale.

Coun. Turner said no doubt they did a great deal of business to the injury of permanent traders here, but the only way to get at them would be to increase the amount to be paid for licenses or make them pay a certain per cent. on the amount of business transacted by them.

Coun. Todd said many commercial travellers had told him that they would be glad, with consequently he thought the by-law should be amended so that the larger amount could be collected.

Coun. Turner's motion was then carried.

A NUISANCE.

Coun. Turner called attention to the existence of a disreputable collection of Indian shanties on Store street and asked if the Council had not the power to order their removal.

Coun. Redfern thought not. The Indians could be ordered from the city, but not their shanties, especially after the example set by a Councillor in the erection of a very desirable class of dwellings. (Laughter).

The Council then adjourned.

The Chinese Tax.

A proceeding has been brought to our notice in which the Government contrived to inaugurate the imposition of the Chinese tax by combining a gross swindle with a bathos of meanness beyond the comprehension of even a Chinaman. The facts are these: Some three years ago the Walkem-Beaven government employed a Chinese cook for the Lunatic Asylum. Their lately assumed anti-Chinese zeal impelled them, before Parliament met, to dismiss him suddenly, without warning, at the end of last July, owing him a month's pay. He applied to Mr. Beaven for his money ($30). He was refused. In vain he urged, day after day, his desire to leave for China. The Government detained him for his pay until the House met and the tax on Chinese was passed. He was *then paid and ten dollars was deducted from his salary.* His name was Ah Hoy. He has since left the country. Thus this so-called white man's government mulcted a Chinaman, through malice aforethought, in order to swell their grand Provincial purse by $10 by means of the illegal proceeding of making a retrospective application of an Act against one who had been by their own deed prevented from leaving the Province. We don't think Mr. Shakespeare ought to stand this. His percentage is in danger at the hands of his own employers. There *used*, at any rate, to be a saying, "Honor among, etc."

Resignation of the Board of Education.

The Board of Education, on Monday, resigned in a body. The Board was composed of Messrs. W. F. Tolmie, M. W. T. Drake, A. J. Langley, A. Munro, E. Marvin and A. R. Robertson. Those gentlemen have discharged the arduous duties pertaining to the post for several years with fidelity and zeal. Their services were rendered gratuitously, and the least the Government could have done was to have treated them with ordinary courtesy. Instead, the organ and supporters of the Government have been instructed to attack and insult them in gross and unbecoming language, and a due regard for their self-respect has at last impelled the Board to tender their resignations.

FATAL ACCIDENT.—James Roberts, engaged as an engineer at Armstrong's saw mill, situate near New Westminster, was drowned on Monday last whilst engaged in selecting a log from a boom. He was observed to go to the boom, but almost immediately afterwards was missed, and his hat was seen floating in the water close by and his pole lying across the logs. Men hurried to the locality; but the unfortunate man's body could not be seen. Grappling irons were then brought into requisition and after the lapse of an hour the body was raised to the surface of the water, and on its being landed an inquest was immediately held. It is supposed that deceased struck his head against a log or pile as he fell and was stunned; or possibly if he ever rose the logs of the boom above him held him in his watery grave. He was a native of Manchester, England, aged 29 years and highly respected by his acquaintances. His funeral took place at New Westminster yesterday under the auspices of the Foresters.

NEW WESTMINSTER RACES.—The horse races held at New Westminster on Tuesday last were not very numerously attended. The sport dragged somewhat, but several heats were well contested. The first race, for a purse of $200, was won by Mr. F. Saunders' horse Billy Nuts; Mr. Hennessy's Oregon Peter, second. Three horses ran. The second race, for a purse of $50, was won by Mr. Townsend's Maggie; Mr. Murray's Langley George, second. Three horses ran. The Town Race resulted in a tight struggle between butchers' horses belonging to Messrs. Dickinson, French and Townsend. Mr. Dickinson's horse won; Mr. French's being second. This was the best race of the meeting.

EDUCATIONAL.—The Victoria School Trustees inform us that we were in error in our item of yesterday relating to the appointments of teachers. It appears that as the Government required Mr. Mackenzie to enter upon his duties as Superintendent at once the Trustees requested him to hand over his class to Mr. Kaye as a temporary arrangement, thus causing unwise and unnecessary haste in the appointment of a principal.

PRIDMORE'S WALKING.—Last night Wm. Pridmore walked ten miles at the rink in 1 hour, 21 minutes and 22 seconds, beating his former time 3 minutes and 19 seconds. This is considered by knowing ones to be very fast time.

Provincial Rifle Association.

The fifth annual prize meeting of the British Columbia Rifle Association commences to-day at Clover Point Range. The first events set down on the programme for decision are the Opening Match, the Effective Militia match and Corporation prize. In the first contest the prizes consist of six sums varying from $17 50 to $2 50, the match being open to all members of the Association, and the firing taking place from the 200 yards range. The second event is open to efficient members of the militia, and will consist of two stages—the firing in the first being from the 200 and 400 yards ranges, the ten highest scores thereat being entitled to compete in the second stage. The prizes for the first stage will consist of $10 for the greatest total and four prizes of $5 each for the next largest aggregates. In the second stage firing will take place from the 500 and 600 yards ranges, the medal of the Dominion of Canada Rifle Association, with $10 added, forming the first prize, and the sum of $7.50 the second. The Corporation prize is open to all members of the Provincial Association and will be competed for at the 200 and 400 yards ranges—five rounds at each distance. The first prize consists of a challenge cup presented by the Mayor and Council of this city, with $12.50 added, the second of $10, the third of $5 and the fourth of $3. The cup must be won two years in succession before becoming the property of any competitor. The firing will commence at 11 o'clock, but to-morrow and on Saturday the hour fixed for the initiatory round is 9 a.m. Unless the prevailing fog lifts and the smoke from the numerous bush fires which now obscures the range clears away, small scores may be expected to be the order of the day, especially at the long ranges. In fact should there be no favorable change in the atmosphere the firing will of necessity be confined to the short ranges, as the target is now almost totally invisible from longer distances.

The Smoky Period

Of 1868 is almost recalled by the present condition of the atmosphere. Smoke hangs like a pall over everything. Earth and water are alike shrouded in an almost impenetrable mist. The forest and brush are on fire in every direction; on some of the country roads it is almost impossible to see ten yards ahead of one. The smell of burning wood fills the air, and whenever a breeze springs up it strikes the cheek like a hot blast from a furnace. We hear of damage to farm fences and telegraph poles. The line between Victoria and Seattle just restored at a heavy expense has been destroyed for many miles and will require to be reconstructed before communication can be re-established. Steamers entering the harbor yesterday experienced great difficulty, and the sun was entirely obscured. Last night the smoke grew denser and the situation is hourly becoming more unpleasant.

Death of the Earl of Lauderdale.

Thomas Maitland, seventh Earl of Lauderdale, died at London on the 1st inst. The deceased Earl was best known to Victorians as Rear Admiral Maitland. He commanded the Pacific fleet about 17 years ago, and, if we mistake not, had at one time large investments in Victoria. He was a Peer of the Realm.

FROM NANAIMO.—The steamer Cariboo-Fly arrived here at 5:20 p.m. yesterday from Nanaimo with the mails and following passengers: Mrs. Lindsay, Mr. and Mrs. Gough, Mrs. Steel, Miss Steel, Mrs. Snow, Miss Cowper, Miss Van Alman, Rev. Riggs, Rev. Hall, Rev. J. Martin, Dr. Powell, Messrs. Nox, Holyroyd, J. Quagilotti, T. D. Marks, Morgan and Randle.

THE STEAMER Wilson G. Hunt, in spite of fog and smoke, arrived here on time yesterday afternoon from New Westminster, bringing the following passengers:—Miss S. Irving, Miss L. Irving, Messrs. J. C. Brown, Wm. McColl, J. H. Howison, C. B. Chamberlain, W. Irvine, F. Saunders, D. Albey, D. Robinson, Quincey, J. Level and E. McQuade.

IN THE RIFLE MEETING which commences this morning New Westminster will be represented by Capt. Peele, Ensign Jackson, Assistant Surgeon Trew and Private McColl of the Rifles, and Sergt. Brown of the Artillery. Nanaimo's representatives will be Capt. Harvey and Privates Clandenning, Randle and Morgan.

FOOT RACING AT NANAIMO.—Carr, the foot-racer, who a short time ago defeated I. Todd at Beacon Hill, "got away" with Beaven, the crack runner of Nanaimo, on Tuesday last. Carr gave Beaven 16 feet start in 100 yards and gradually gaining on him beat him by a foot. The betting was 2 to 1 on Carr, and considerable money changed hands.

POUND LIMITS.—The attention of the ratepayers is directed to the fact that the advertisement prescribing the cow pound limits, on which a vote will be taken on the 17th inst., has been materially altered by order of the Council.

COMING.—The mail steamship Dakota sailed from San Francisco on Tuesday last at noon for this port and will arrive here, unless detained by fog and smoke from bush fires, early to-morrow morning.

THE steamer Isabel arrived here at 5:30 p.m. yesterday from Port Townsend, bringing across the overland mails, 328 sacks of flour, various other freight and a dozen passengers.

RESIGNATION.—Mr. Phinney, an assistant teacher in the boys' school, Victoria, has resigned.

THE steamer Enterprise from New Westminster anchored in Cadboro Bay last evening.

[Free Press, Sept. 11th.]

Immense bush fires are raging in the neighborhood of Wellington and also in several places on the Victoria road. On Friday night all hands at Wellington had to turn out to save the works and buildings from destruction. Several of the buildings caught fire from the sparks, but fortunately were discovered in time to prevent the destruction of the buildings. On the Victoria road several of the culverts have been burnt out, and it is said that the Chase River bridge is in imminent danger.

Mr. Horth, proprietor of the Nanaimo livery stable, lost the thumb of his left hand under very peculiar circumstances. On Sunday morning while in the act of unfastening the halter rope, the horse pulled back and the rope twisting around Herth's thumb completely severed it.

The ship Topgallant, in tow of the steamer Blakely, sailed for Acapulco on Sunday afternoon, with 2,000 tons of Douglas and Chase River coal. The Topgallant will return to this port for another cargo of coal. The bark Hecla has completed her cargo of Wellington coal, and was towed to sea last evening by the steamer Alexander. The Hecla will proceed to San Francisco.

Mr. E. G. Prior, Inspector of Mines, and lately appointed Government Agent, etc., for Nanaimo arrived here last evening to take charge of the Government office, and relieve Mr. T. L. Fawcett.

Todd the Man for Galway.

EDITOR COLONIST:—Now that Mr. Todd has been purged of the trammels of the self-chosen convention, and selected by the unanimous voice of a large and influential meeting as a fit and proper person to represent Victoria District in the Commons of Canada, let his friends put their shoulders to the wheel and insure his return. The people have done Mr. Todd a simple act of justice in freeing him from the taboo of the "Thug," and an equal act of justice was done Mr. Dalby in showing him pretty plainly that the people do not want him, will not have him, and will confer on him the honor of staying at home. His action in the City Council is but a sorry recommendation for elevating him to a seat in the House of Commons.

Yours, VOTER.

CALIFORNIA.

SAN FRANCISCO, Sept. 9.—The Pioneers are celebrating Admission Day. They assembled at their hall this morning and marched through Montgomery and Kearny streets to the corner of Bush, where they took the cars for Woodward's Gardens, where literary exercises were held. Judge Z. Hastings presiding.

Amount received up to date by ex-Gov. Low, treasurer of the citizens' relief committee, $2,426.95. At the sale of seats to-morrow for the benefit at the California Theatre Thursday afternoon, Mrs. Scott-Siddons, the actress, will auction off the boxes alotted them. The benefit promises to be a great success.

NEVADA.

VIRGINIA, Sept. 8.—A young man named Parks, in the employ of Perkins, druggist, was found dead in bed in the Arlington House this morning. He left a note stating his life was a failure and he had taken prussic acid. No cause is known for the act.

EASTERN STATES.

VICKSBURG, Sept. 8.—Weather fair; very warm; thermometer 95°. The fever continues increasing in the same proportion as during the past week. It is estimated that fully 2,500 are down sick. Deaths to-day, 31—21 whites and 10 blacks.

NEW ORLEANS, Sept. 6.—Collector Smith to-day received a communication from C. H. Isaacson, which stated that St. Vincent's infant asylum is in a very sad condition. The Sisters of Charity have 200 infants of all nationalities in their charge, and they sadly need food and clothing; especially blankets. Yellow fever has gained entrance into the institution, and forty of the little inmates are suffering with the disease.

PORT STANLEY, Aug. 30.—This evening a party of five, consisting of Wm. Christian, James, Newman, Misses Fannie and Bertha Bostwick, and Mrs. Ball hired a boat and proceeded to the lake to have a row. When about half a mile from the piers Mrs. Ball, without giving any notice, suddenly stood up and said, "Good-bye!" and jumped into the lake. Mr. Newman jumped in after her, but her actions were so sudden that she sank before he could reach her. She was a widow, and leaves four small children. There appears to be no cause for the rash act.

CHARLOTTETOWN, P.E.I., Aug. 30.—Four of the Conservative members of the Government have resigned.

QUEBEC, Aug. 30.—His Grace, the Archbishop of Quebec, has notified by circular letter the *cures* of the different parishes under his charge that all political meetings upon church grounds are hereafter to be prohibited.

EDUCATION.—Inspector of Schools: "It strikes me that teacher of yours retains little or no grasp upon the attention of the children—not hold enough you know—not hold enough—." An Immense Shower of Small Fish Falling from a Cloudless Sky in Butte County, California.

[From the Chico Record.]

About two o'clock p. m., a young man, who works on the Shepard ditch, stepped out of Mr. Yokum's store, and was pelted with an immense lot of small fish, say from one to three inches in length, and consisting of a great variety—sun perch, flying fish and many others that do not belong to the scaly family. The young man called those in the store to come and see the wonder, when more than a dozen men went out and saw them dropping thick and fast. They covered the roof of the store, and extended for a circumference of two or three acres, and perhaps more. I thought at first that flock ofs travelling pelicans were unloading their pouches for the purpose of attaining a higher stratum of atmosphere, that would take them more rapidly to their destination. But I gazed for a long time in the clear blue sky in every direction without being rewarded with the sight of a single pelican. Then I weakened on the pelican theory, and I am led to believe if it were the work of pelicans they must have been so high that they were out of sight, and that an immense number of them must have vomited in concert on the devoted soil of Helltown, for some reason unknown to this deponent. They were very wet when they first fell, but soon dried after striking the ground.

I understand that William Phillips, laboring under the impression that all good things come from above, devoured one of the finest ones of the lot, and said it tasted so good that he sadly regretted not having harvested more of them to pander to his aristocratic stomach. Such fine epicurean phrenzies are very rare in this community.

Eli Branum has preserved quite a lot of them in a bottle of gin, which he will send by the expressman to Mr. Hill of your place, so that the people of Chico can have an opportunity of seeing the kind of manna that falls spontaneously in Helltown. Say after this that Helltown is not a favored spot, where the heavens weep fish, and the river murmurs over beds of gold; where the girls are so pretty they make your heart beat so fast that it knocks all the buttons off your vest, and then you can go without a vest just as well as not, for the air is so mild and balmy that you don't need much clothing any way. FREEMAN AND GENTLEMAN.

Nice Distinctions of Rank in English Society—The Captain and the Banker.

A correspondent of the Baltimore *Sun* is straying through England, and has picked up the following information:

"In England to day the lines are as closely drawn as in early days with reference to the mode of epistolary address to freeman and gentleman. That is to say, the city man or freeman of olden times, and in many cases, now, is addressed as Mr., while the gentleman has his name adorned with an Esquire at the end. Woe be unto the writer of a letter to a non-city man who omits Esquire. It is an evidence of the unbred or ignorant. You may flatter a city man by giving this affix to his name, but you will not offend him by the prefix of simply Mr. ——. In the case of the non-city man being addressed by letter as Mr., offence is created.

"You would hardly think that this matter is dwelt on so strongly in this age. It is: and I know cases of friendly relations being severed by the application of tradesmen Mr. to the impecunious West End gentleman who demands Esquire. In the plays of Massinger, I remember numerous illustrations of this distinction. Yet as far as my reading goes, and I must confess to a weakness in reading old books on old subjects, I cannot recall a single evidence that the word freeman was not prior in its creation to the word gentleman. But Mr., a corruption of master, an employer of apprentices in trade is an after appellation to either. In the time of Edward III., a city man was a Mr. but no gentleman, and to-day day the distinction obtained more or less discriminative. At parties, at dinner parties, especially you will see the plain Mr. singled out for the minor places if he be out of the three legal professions, divinity, law, and physic, and if he be in trade.

"I remember on one occasion a wealthy banker, now of some note as the successor to a great American financier and philanthropist, whose bronze effigy is in the shadow of the Royal Exchange, being given a secondary place at dinner table to a glowingly uniformed captain who could not put a penny side by side with every thousand pounds of the banker, and who had not an equivalent proportion of brain or pedigree, but who ranked the banker in his status by reason of his profession. One was a plain Mr., the other a titled Captain. One was a city man, the other a gentleman.

"Not until you go into English society thoroughly, do you learn how rigidly the lines are drawn in such weak trifles. Some say they are becoming weaker and less. Others say the contrary. Of a rank so vague and so difficult of a clear and concise definition as that of gentleman, comprising as well those who have a superior specific station by birth and manners as those who, if they possess any at all, possess no other, it is very awkward to determine a precise period of English society when the world originated. For ages after the Norman forays here, you cannot find the word used, and I am at a loss to say when the 'fine old English gentleman,' so rare, etc., appeared first on this soil."

THE new Photograph Gallery on Government street, near James Bay bridge will permanently close on Monday, September 16th. Come at once and avoid the rush of the last day. *

THE RECEIVER-GENERAL'S ROBBERY.

Discovery of the Stolen Notes in New York.

(From the New York Sun, Aug. 27.)

Detective Robert Pinkerton gave his testimony yesterday in the Jefferson Market Police Court in the case of the broker, Jacob D. Otis, who is charged with negotiating $12,000 of Canadian currency, stolen from the office of the Assistant Receiver-General of Canada, Mr. Alex. Fraser. The detective had ascertained that a large number of new Canadian bank notes had been suddenly put upon the market. Investigation proved that they were sold by Mr. Otis. The detective visited Otis's office at 47 Exchange place on Aug. 23. Otis said that he had bought them from Messrs. White, Morris & Co., of Wall street. They visited the office together, and in answer to an inquiry of Otis's, the clerk acknowledged that Otis had bought several hundred dollars' worth of the notes there. Otis had a large package of the notes in his possession while with the detective. The latter asked Otis where he obtained that particular package. He replied that he didn't know, but would try to find out. The two visited Cantoni & Company's Office at 35 Wall street. Mr. Cantoni identified Otis as having sold him a number of new Canadian bank notes. The offices of Vermilye & Co., Kennedy, Hutchinson & Co., and Diefendorf & Co., were also visited, and at all of these places Otis was identified. While on their way to the latter office, they were met by Detective Dorsey, who arrested Otis. The three men visited the office of Messrs. Hatch & Foote. Otis handed a large package of notes to Mr. Hatch, and asked him to keep them for him. Detective Dorsey, however, explained to Mr. Hatch that he could not keep them. They were stolen property, and would be required as evidence in a criminal process about to be brought.

Mr. Alexander Frazer, the Assistant Receiver-General of Canada, identified the Canadian bank notes produced in court and alleged to have been sold by by Otis, as part of those taken from his safe in Toronto on the 4th of July.

Judge Murray held the prisoner in $5,000 bail to await a further examination. It was furnished by Otis' father-in-law, Mr. J. D. Bird, a hat manufacturer of 514 Broadway.

An Explosion in England.

A thunderstorm passed over Morley and district yesterday afternoon. The storm was at its height about twenty minutes past four, when there was a very vivid flash of lightning and a heavy peal of thunder. Simultaneously the electric fluid struck a powder magazine containing one ton of powder, belonging to Messrs. John Haigh & Sons, Victoria Colliery, Bruntcliffe. The magazine was situate in the middle of a field, 400 yards frtm the colliery, in a southwesterly direction. The shock was something terrific, and but for the incessant rain which preceded the explosion, and had the effect of stopping all traffic in the vicinity, many lives it is thought must have been lost. As it is, the effects of the disaster may be briefly stated as follows: A field of oats is completely destroyed, being laid to the ground as well as scorched. At the pit a man named William Haigh was struck with a brick and hurled into an adjoining coal screen. The man in the engine house was fearfully frightened by the engine house window squares being blown in. At that moment he drawn four men up. They had just risen to sight when the explosion took place. The engine man shut the steam off and ran out of the engine house. The four men managed to escape alive, but the cage was fearfully damaged among the head gear. Two girls named Ainley and Moseley, who were playing about, were dreadfully injured. The great bulk of the property in the vicinity, although 400 yards away, had most of the windows smashed and otherwise injured, notably the iron school, Albert row; Mr. Sohn Haigh's house, Messrs. W. Smith & Co., Morely Relish Depot, etc. No lives are reported to be lost up to the time of going to press. —*London Globe, August 6th.*
